

ELAGAS Amel

DevOps & Cloud Infrastructure Engineer

With over 4 years of experience designing secure CI/CD pipelines, implementing DevSecOps practices, and automating multi-cloud deployments (AWS, Azure, GCP). Skilled in Infrastructure as Code (IaC), zero-downtime releases, and FinOps for cost optimization. Adept at leading technology initiatives that enhance security, reliability, scalability, and operational efficiency across distributed systems.

Core Skills

CI/CD & Automation (Jenkins, Fastlane, Ansible, Shift-Left Testing) · Infrastructure as Code (Terraform) · Cloud Platforms (AWS, Azure, GCP, EDARATCLOUD, Infomaniak) · Containerization, Orchestration & Web Servers (Docker, Docker Compose, Kubernetes, Nginx, OpenResty) · Mobile DevOps (Xcode, Gradle, TestFlight, App Store, Google Play, Blue-Green & Canary releases, MobSF) · Monitoring & Logging (Grafana, Prometheus, AWS CloudWatch) · Security & Networking (IAM, VPC, Route 53, TLS/SSL, OpenVPN, Asterisk, Firewall, SSL Pinning, Let's Encrypt) · FinOps & Cost Optimization (AWS Cost Explorer, rightsizing, budgeting, audits) · Scripting (Python, Bash/Shell) · Build & Packaging (Gradle, Xcode, npm, Yarn) · Web Development (ReactJS, Material UI, ElectronJS) · Back-End (Node.js, Express.js, MongoDB) · High Availability & Scalability (Load Balancing, Disaster Recovery, Auto Scaling) · Version Control (Git, GitHub)

Work Experience

Cloud & DevOps Engineer

Since Sept. 2025

[SOCOTRAP – Industrial Seafood Processing Company \(Freezing & Cold Storage Systems\) Sfax, Tunisia](#)

- Deployed AWS cloud platform for batch & freeze-date traceability, ensuring compliance & real-time monitoring.
- Migrated 5+ legacy systems to AWS with automated backups & patching, reducing downtime by 40% and costs by 25%.
- Implemented AWS IAM, VPC security policies, secure reverse proxy & centralized logging, strengthening overall security.

Tech Lead – Cloud & DevOps / Mobile CI/CD

Nov. 2024 - Sept. 2025

[iMaxeam IBM Premier Business Partner Sousse, Tunisia](#)

- Lead end-to-end delivery of MAXapps projects for SNB, KIDANA, AGL, and KAFD, ensuring system stability and on-time delivery.
- Designed, implemented, and maintained high-performance CI/CD pipelines with Jenkins, Fastlane, Terraform, and Ansible, increasing release speed by 40% and reducing manual errors by 90%.
- Automated mobile app deployment to Google Play and Apple App Store, cutting delivery time by 50%.
- Leveraged AWS services for artifact storage, DNS management, and proxy configuration, supporting 50+ projects and improving deployment efficiency by 35%.
- Remediated 100+ vulnerabilities, enhanced app security by 60%, and achieved 98% observability.
- Managed and resolved critical production incidents, reduced MTTR by 40%, ensured 98% uptime, and conducted root-cause analysis.
- Implemented FinOps practices, achieving 30% reduction in cloud costs through audits, rightsizing, and waste elimination.

Cloud & DevOps Engineer

Oct. 2022 - Oct. 2024

[iMaxeam | IBM Premier Business Partner Sousse, Tunisia](#)

- Designed & deployed AWS infrastructure with Terraform, enabling scalable, reproducible environments
- Built and optimized CI/CD pipelines, improving deployment reliability by 40% and reducing rollback incidents by 30%.
- Automated infrastructure operations and deployments, reducing manual provisioning time and operational errors.
- Collaborated closely with development and QA teams to improve release quality and delivery speed.

Cloud & DevOps Engineering Intern (AWS | Terraform)

Jan. 2022 - Sept. 2022

[iMaxeam IBM Premier Business Partner Sousse, Tunisia](#)

- Implemented automated Infrastructure as Code (IaC) provisioning with Terraform and AWS, enabling 99% reproducible deployments and scaling cloud environments for 10+ projects with zero downtime.
- Integrated continuous testing and version control, improved deployment reliability by 40% and reduced rollback incidents by 30%.
- Developed a ReactJS + ElectronJS automation tool for Terraform module execution, cut manual AWS resource provisioning time by 50% and eliminated human error in cloud infrastructure changes.

Technician Internship

Jan. 2019 - May 2019

[ComunikCRM Menzeh 7, Tunisia](#)

- Implemented Asterisk VoIP with OpenVPN, boosting communication reliability 80%.
- Developed web monitoring app with real-time call logs & analytics, cutting troubleshooting time 40%.

Education

National Engineer's Degree in Teleinformatics

2019 - 2022

[Higher Institute of Computer Science and Communication Technologies of Hammam Sousse \(ISITCOM\) Sousse, Tunisia](#)

Honors: Good | Class Rank: 1st

Fundamental Bachelor's Degree in Teleinformatics

2016 - 2019

[Higher Institute of Information and Communication Technologies \(ISTIC\) Borj Cedria, Tunisia](#)

Honors: Good | Class Rank: 1st | [Blockchain Diploma](#)

Projects

- **Global MAXapps Infrastructure (2022–2025):**
 - * Installed, configured, and upgraded MAXapps Mobile servers on RedHat, Debian, Windows Server, and Docker, ensuring **90% uptime** and optimized performance. Delivered on-premise deployments across KSA (MOT, MOC, MOF, Tadbeir, KAFD, RCJY, Jeddah, Tarshid, LADUN), Africa (RTC, BDEAC, Gaia Sofert), Europe (AGL, Lhyfe), and USA (UCSDH, CSWG), **reducing deployment time by 50%** and achieving high client satisfaction.
 - * Owned the full lifecycle management, performing upgrades, conducting security checks, and troubleshooting critical issues to ensure **90% uptime** and system integrity.
- **Release & App Store Management (2022-2025):**
 - Led the full lifecycle of 20+ mobile applications**, managing releases on Apple App Store and Google Play, coordinating cross-functional teams of developers and QA to ensure timely, high-quality deliveries.
- **AWS Serverless Deployment Using Terraform (2022):**
 - Designed and deployed a **serverless cloud solution** (API Gateway, Lambda, DynamoDB) automated with Terraform, reducing manual deployment effort by **70%** and improving scalability across **5+ environments**.
- **Docker Compose Web App (2021):**
 - Containerized **web applications with Docker Compose**, which cut setup time by **60%** and ensured consistent multi-environment deployments for **cross-platform projects**.
- **Kubernetes (Minikube) Cluster Operations (2021):**
 - Diagnosed and optimized **Kubernetes deployments** using YAML manifests and CLI tools, improving cluster uptime by **25%** and accelerating rollouts through automated scaling and recovery.
- **MERN Stack Project (2021):**
 - Developed the **ISITCOM PFE Library** web platform using the MERN stack, which supported **100+ students** and streamlined project submission workflows by **50%**.
- **AI & Android (2021):**
 - Developed a TensorFlow Lite Android app enabling **real-time, offline object detection** on edge devices.

Certifications & Training

- **Oracle Cloud Infrastructure (OCI) :**
 - DevOps Professional (1Z0-1109-25) | Foundations (1Z0-1085-25) | AI Foundations (1Z0-1122-25) | Data Platform Foundations (1Z0-1195-25)
- **Harness :**
 - Infrastructure as Code (IaC) Management | Continuous Delivery & GitOps | Cloud Cost Management | Security Testing Orchestration
- AWS Certified Cloud Practitioner (CLF-C02)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- New Relic Verified Foundations (NR-VF)
- Qualys Certified Specialist – Vulnerability Management Detection and Response (VMDR)
- Big Data Engineer v2 Mastery Award (IBM)
- Aviatrix Certified Engineer – Multicloud Network Associate (ACE)
- Cybersecurity Essentials (LFC108)
- Understanding the OWASP® Top 10 Security Threats (SKF100)
- ISO/IEC 27001 – Dynamics of Information Security Management System, ISMS (Alison CPD Certified)
- FinOps Certified Practitioner (Kodekloud)
- OpenShift 4 (Kodekloud)
- PSM I – Professional Scrum Master Training Certificate
(Credential links available on LinkedIn or upon request)

Volunteer Experience

Team Leader	Oct. 2021 - Dec. 2021
Competition: The Night of Computing 2021 ISITCOM Hammam Sousse	
• Led a team of 5–9 members to deliver an innovative IT solution under tight deadlines	
Student volunteer	Jan. 2021 - Jun. 2021
Club ISF ISITCOM Hammam Sousse	
• Restored 15+ PCs for 3 schools, enabling 200+ students' digital access and reducing e-waste	
Team member	Nov. 2019 - Dec. 2019
Competition: The Night of Computing 2019 ISITCOM Hammam Sousse	
• Designed and delivered innovative IT solutions within 24 hours , achieving 2nd place among 14 teams in the 3DS OUTSCALE 'Escape from Chaos Monkey' challenge
